Jocelyn:

While working with the Commission, I was involved in handling these type requests. On behalf of the Office of Regulatory Staff, I reviewed the requests and found no problems with the filing. ORS would not oppose Verizon's Wireless request for acceptance of its Part 4 filing and the approval of the company's request to retain these numbering resources.

Subject: Verizon Wireless Part 4s for South Carolina

Dear Mr. McDaniel,

Verizon Wireless recently conducted a self-audit of its Part 4 forms, and discovered that Part 4 forms hadn't been filed with the Pooling Administrator by the in-service deadline for seven thousands-blocks in South Carolina. We shuffled responsibilities among our staff recently, which unfortunately contributed to our missing the deadlines. Verizon Wireless apologizes for missing the Part 4 submission deadlines for seven thousands-blocks in South Carolina, and respectfully requests that the Public Service Commission of South Carolina accept our Part 4 forms, and grant our request to retain these seven thousands-blocks. If you grant our request, please forward our attached Part 4s (seven included in the attached .pdf file) to the Pooling Administrator (gary.zahn@neustar.biz). Following is a description and explanation for each thousands-block:

<<VZW Seven Part 4s in SC, 8.14.06.pdf>>

803-673-7 COLUMBIA and 803-673-8 COLUMBIA:

The Part 4 deadline for these two thousands-blocks was just August 6, 2006 so these have likely not yet appeared on the delinquent list you receive from the Pooling Administrator. Both were placed into service before August 6, 2006, but we missed filing the Part 4 forms by that date. Specifically, 803-673-7 COLUMBIA was placed into service on July 13, 2006 and 803-673-8 COLUMBIA was placed into service on July 24, 2006. Please accept our apology for missing the Part 4 filing deadline, and please grant our request to retain these thousands-blocks.

864-529-2 SPARTANBURG:

The Part 4 deadline for this thousands-block was May 14, 2006, so this one likely appeared on the delinquent list you received from the Pooling Administrator in June. We missed placing this block into service by May 14, but we did place it

8/17/2006

into service soon after, on May 22, 2006. Angela Spain attempted to send the Part 4 form to you on June 8, but I don't believe that you received it because the e-mail address was incorrect. Please accept our apology for missing the in-service deadline and the Part 4 filing deadline, and please grant our request to retain this thousands-block.

864-607-3 GREENVILLE:

The deadline for this thousands-block was December 17, 2005, and I believe we intended to request an extension of the Part 4 due date before then, but unfortunately it appears that we didn't. We missed placing this block into service by December 17, 2005, but loaded the block into our systems on December 22, 2005 and made its numbers available for assignment. However, because of the way our system assigns numbers in lowest numerical order first, numbers from other previously opened thousands-blocks that had been aging and then became available for reassignment were assigned before any numbers from 864-607-3. So the first number from 864-607-3 wasn't assigned until January 4, 2006, but we now have 945 numbers from this block assigned to customers (as of August 14, 2006). Please accept our apology for missing the in-service deadline and the Part 4 filing deadline, and please grant our request to retain this thousands-block.

864-704-5 GREENVILLE and 864-704-6 GREENVILLE:

The Part 4 deadline for these two thousands-blocks was July 8, 2006 so these likely appeared on the delinquent list you received from the Pooling Administrator in early August. Both were placed into service before July 8, 2006, but we missed filing the Part 4 forms by that date. Specifically, 864-704-5 GREENVILLE was placed into service on June 6, 2006 and 864-704-6 GREENVILLE was placed into service on June 29, 2006. Please accept our apology for missing the Part 4 filing deadline, and please grant our request to retain these thousands-blocks.

864-312-0 MONCKS CORNER:

The Part 4 deadline for this thousands-block was March 28, 2005 and I believe we intended to request an extension of the Part 4 due date before then, but unfortunately it appears that we didn't. We missed placing this block into service by March 28, 2005, and we didn't simply return it and re-request it in April because we expected a large volume of assignments in April 2005 when reverse toll billing (land-to-mobile) was eliminated. However, the first number from 864-312-0 wasn't actually assigned until April 29, 2005, and now we have 934 numbers from this block assigned to customers. Please accept our apology for missing the in-service deadline and the Part 4 filing deadline, and please grant our request to retain this thousands-block.

Again, Verizon Wireless apologizes for missing the Part 4 submission deadlines for the above thousands-blocks in South Carolina, and respectfully requests that the Public Service Commission of South Carolina accept our Part 4 forms, and grant our requests to retain these thousands-blocks. If you grant our request, please forward our attached Part 4s to the Pooling Administrator.

Please note that Verizon Wireless is committed to taking additional measures, beyond self-audits, to ensure that our Part 4 tracking process is enhanced so that we do not find ourselves in this situation again. Please don't hesitate to contact me if you have any questions.

Sincerely,

Dana Smith
